

Better insight. Better decisions. Better medicine.

## Neurophysiologists

Impulse Monitoring Inc. (IMI) is a world-class intraoperative monitoring services company providing a culture for professional growth and great opportunity to practice the latest intraoperative monitoring techniques. Our Neurophysiologists are committed to the highest standards in monitoring services. Our constant commitment to quality patient care and incomparable training program has fueled our continued growth and success.

IMI is seeking several experienced Neurophysiologists. The candidate(s) will know or learn all types of IOM, mainly for the vascular, neurosurgical and orthopedic procedures including complex spine, orthopedic, peripheral neuromuscular and intracranial surgeries. In addition to providing monitoring services, the candidate will be encouraged to participate in ongoing and original research aimed at improving the field of IOM and development of regional service volume. We offer an extensive training program towards CNIM or ABNM certification.

Minimum requirements: Bachelor's Degree in a health sciences or physical sciences discipline. CNIM certification and experience of IOM is preferred however IMI has the expertise and educational capability to train interested and qualified candidates.

IMI offers a competitive compensation and benefits package. EOE.

We look forward to hearing from you! Please submit your resume today to [resumes@impulsemonitoring.com](mailto:resumes@impulsemonitoring.com) or send to our HR confidential fax: (410) 730-2489.
